

CONIFER NETWORK  
DEVELOPMENT

**Helping You:**

- Align providers in a network
- Take the first step to value-based payments
- Create governance documents and establish contractual relationships
- Align quality-based incentives or payments among providers
- Implement conditions of participation for the network

## Building a Strong Foundation for Accountable Care

Providing the experience and infrastructure needed to prepare for managing a defined patient population

### **YOUR BUSINESS CHALLENGE**

Beginning the journey to value-based healthcare requires the creation of new strategies, tools and competencies. Essential to this model is a culture of collaboration and teamwork between physicians and hospitals, and effective clinical integration needed to improve quality and value. Through a clinically integrated network, providers are demonstrating their ability to improve patient care, reduce costs and enhance their value to their population. To succeed in this environment, your network needs a model that's appropriate for your organization, market and patient mix.

### **WHAT WE OFFER**

Conifer Network Development helps providers improve performance by building an effective clinically integrated network. We'll help you formulate your strategy, design and implement your network, track and improve performance, and manage quality incentives. Our strategic consultation services are backed by our ConiferCore® Clinical Integration Intelligence platform that turns your data into actionable insights.

Conifer Health helps organizations transition from volume to value-based care, enhance the patient experience and improve quality, cost and access to healthcare.

## **CONIFER** HEALTH SOLUTIONS®

**Hospitals & Health Systems**

We have more than 20 years of experience developing, implementing and operating a range of integrated models, including Physician-Hospital Organizations (PHOs), Independent Practice Associations (IPAs) and subsidiaries of the health system. We assist clients in building a clinically integrated network that serves as the foundation for healthcare reform by:

- Leveraging a network structure, governance model, contract formats, and standard workflows and processes
- Developing the network through the execution of a recruitment strategy, facilitating educational events, and identifying physician champions
- Aligning hospital executive and physician leadership to achieve a culture of teamwork
- Utilizing an IT framework with tools for monitoring, managing and reporting on quality and cost outcomes
- Creating a quality incentive model that aligns all providers around the shift to value-based payments

### **HOW WE'RE DIFFERENT**

#### **NCQA audited and validated**

The NCQA P4P Audit Compliance Review program validates the integrity of the software that produces measurable results, and certifies that current NCQA standards are being met. Our software improves the accuracy of reporting and produces reliable and credible results.

#### **Insights into action**

We understand that accountable care organizations have different data needs. Our predictive modeling, financial analytics and clinical performance measures turn your data into actionable insights.

#### **Experience-based, comprehensive solutions**

Conifer Health Solutions provides a comprehensive, robust and fully integrated value-based care solution, leveraging our consulting, implementation and operational expertise.
